How does the central badung market play its role for the 24-hour society of denpasar ? Abstrak The central Badung Market is located in the central part of denpasar city, traditionally, this market was designed to function in the day time only. but due to the development of denpasar municipality, unpredictably the market has grown into a 24 hour market which supplied the multi-sector demands of people. the vendors, consumers, and workers who are mostly the balinese, are effected. the workers are segmented into morningevening or night time workers. the night time workers wre originally from denpasar only, but nowadays they are young people from outside of denpasar, such as from gianyar, and badung subprovinces. some of them still at formal schooling. the 24 hour functioning of this market is affecting the normal activity of the balinese. it is well designed or has it just accidently occured ? one thing to remember is that this 24-hour market seems to have been prepared with out planning but instead has it grown automatically. the problems encountered are : a) formal schooling for the young balinese in denpasar is a disturbed. due to the need for night time workers as carries in the market till late evening. b) disturbance of the normal biological clock of people nearby the market, due to it being busy and noisy for 24hour. the positive impacts are : a) a 24 hour market opening up job opportunities for people nearby: b) strengthening the accessibility to food stuffs in all parts of the small market at the grass roots level in denpasar municipality. c) stakeholders involved in the market automatically synchronize themselves into 3 shifts works morning, evening and night shift work. the conclusions drawn are the 24 hour badung market is built based on filling the need and bridging the gap: this market creates job opportunities for local people nearby and strengthening supplies of good and fresh food stuff to the lower level of the market which is more accessible to people in general. it is suggested that the government should be actively involved in monitoring the negative impacts as well the positive benefits of this marjet to balinese keywords : 24 hour society, night shift work, traditional market, cem=ntral badung market
